Reviews

The publication is easy in read better to understand. It is writter in basic words and phrases rather than hard to understand. You wont truly feel monotony at anytime of your respective time (that's what catalogues are for about if you question me).

CONSCIENTIOUS SOCIOLOGY: A NEW PARADIGMATIC SHIFT (PAPERBACK)

Hs Media, United States, 2013. Paperback. Book Condition: New. 216 x 140 mm. Language: Persian-Farsi . Brand New Book ***** Print on Demand *****.Conscientious Sociology is an introductory but essential step towards the recognition of paradigmatic contestations and shifts in the post-1970s Social Sciences. It develops an ideal typology of three major paradigms, i.e. the Foundationalist, the Relativist and the Critical-Conscientious Paradigms by discussing and comparing their principles in four Meta-Theoretical domains: Ontology, Epistemology, Methodology, and Axiology. Hosseini, in his book, shows how the Conscientious paradigm deals with well known dilemmas which are not effectively resolved by two other paradigms; dilemmas like how to create an objective account of reality whereas the subjectivities of actors and investigators are accommodated or what relationship must be set up between quantitative and qualitative methods. The book also further discusses the principles that Conscientious sociologist are expected to consider when engaging in empirical research. It finally, provides its readers with a unique perspective adopted from a radical Iranian social thinker, Ali Shariati whose ideas are portrayed as an insightful exemplar for Iranian critical sociologists. The book also contributes to the growing debates around the nature and future of critical sociology in the West by adding a Southern perspective.
